PRODUCTS

Built on Experience. Driven by Vision.

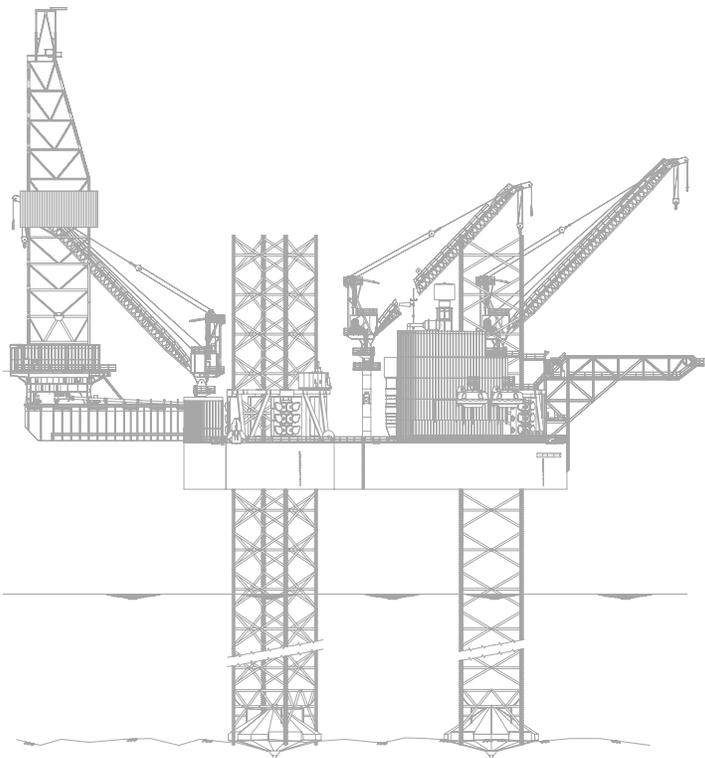

WORKHORSE[®] DELIVERS 35,000 FEET DRILLING DEPTH

Specifically Engineered for Deep Drilling

The LeTourneau WORKHORSE[®] Class self-elevating mobile offshore drilling unit supports up to 3.5 million pounds of cantilevered drilling load, and outperforms any competition in water depths to 400 feet.

The WORKHORSE is designed for efficient operations year round in the Central North Sea and in moderate meteorological regions, to 400-foot water depth.

With its 10,000 kip drilling payload, 2 million pound hook load, 1 million pound setback and integral off-line stand building for simultaneous operations, the WORKHORSE is the rig of choice of operations looking to complete their complex deep HT/HP wells.

BUILT FOR THE NEW FRONTIER OF DRILLING

The WORKHORSE® is equipped with 3 open-truss low drag legs of LeTourneau proprietary modular design that provides you with the industry's toughest legs for addressing not just the wind and waves but seabed uncertainties to keep you on the payroll. The rig is equipped with state of the art LeTourneau drilling equipment, an 80-foot reach cantilever, a helideck for S61N, S92 or Mi-8 helicopters and accommodation styles to support up to 150 persons onboard.

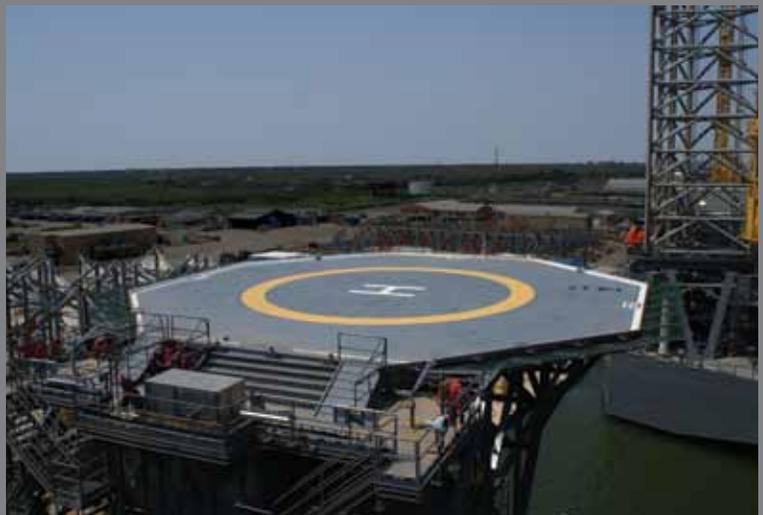

OVERVIEW OF CAPABILITIES

Drilling Variable to 10,000 kips

Mud Pit capacity over 5,100 bbls

Usable main deck space over 14,000 sq. ft.

Preload jacking

LETOURNEAU OFFSHORE PRODUCTS designed and built the world's first jack-up drilling rig in 1955, and has designed and built over 200 jack-ups since then. The company is a leader in offshore jack-up drilling rigs, offering more standard designs and deeper experience than any other supplier.
